

# FRV NEWS - JUNE 2010

*What do these pictures prove? Does the expression "Every dog has his day" have any meaning to you? This may be true, judging from the photo on the right. But more importantly it proves that **Catch and Release** really does work! **Above** is one distinctly scarred 39.5 inch fish caught by a young man on the Chain last year. **At right** is the same fish, now measuring 40.5 inches, caught this May by Dan Koniewicz.*

Thanks to both anglers this fish is swimming free again, waiting to be caught by another lucky angler. Wonder how long it will go the next time?

**FRV is back in session!...** Our Chapter meetings resume on **Aug. 11th** with our annual Pool Demo at the Dundee Park District Pool and Senior Center from 6 to 10. We hope to see you all there!
